Lots of GenX questions about the scope of the permit denial. I think we should forward him the memo from yesterday with this section, and go from there.

Denial of Chemours' Permit Application

Chemours is in the process of applying for a new NPDES (National Pollutant Discharge Elimination System) permit, a federal permit program that controls water pollution and is managed by North Carolina DEQ. Today, Governor Cooper announced that DEQ will deny Chemours' permit request to release GenX, issuing a new draft permit that prevents GenX release. Acknowledging the potential for other possibly harmful compounds, Chemours' draft permit will include a clause authorizing the state to quickly re-open the permit if needed to regulate and enforce levels of any of emerging compounds based on new scientific findings.

Subject: RE: Voice Mail Follow-up

He's a retired journalist. I'm heading into a meeting. Can someone return the call and find out what he's looking for?
